

NORTH HUMBERSIDE MOTOR CLUB

Well here it is, your first abridged version of the Club Magazine.

As it is, you're getting all of the information we have at the moment, which isn't a lot. We've got details of the Club Autotest Championship positions at the moment, future and past events and one or two snippets of news.

The Club now has videos of the Holderness Trophy and Crystal Stages Rallies for hire - please ask Ruth Bower or either Editor if you would like to hire one.

With effect from 1st November, 1983 there is a new law regarding the tread grooves on tyres. The base of every tread must now be visible - there must be no bald patches and 1mm of tread depth over three-quarters of the tyre width all round the tyre is a must.

Congratulations to Howard Paterson (who?) on his 9th overall on the Himalayan Rally - the highest ever position achieved by a Briton.
